PT Tech is an innovative leader in power transmission products for the off-highway market. Specializing in diesel engine clutches and enclosed wet brakes for severe duty machines, PT Tech offers both standard and custom designed products. PT Tech goes beyond just the

mechanical parts to include complete clutch systems that are microprocessor controlled and hydraulically actuated. The controls offer safety, reliability, and protection from abuse in a simple package that is SAE J1939 compatible.

PT Tech is a 100% employee owned company. All of the employee-owners know that customer satisfaction is the key to success.

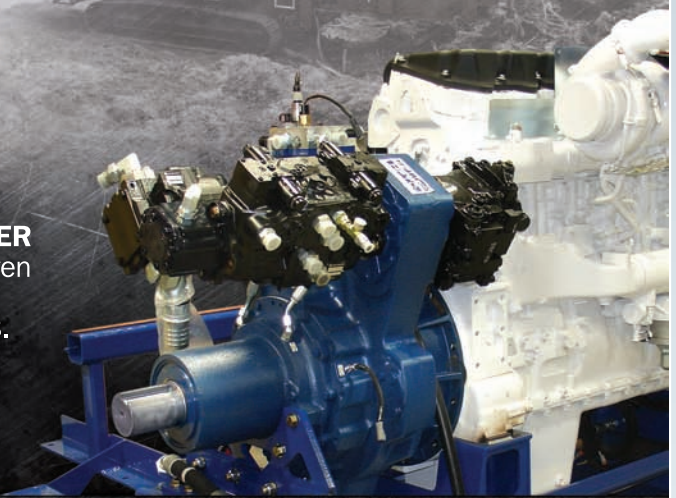

INNOVATION FOR EXTREME MACHINES

HPT015FX Diesel Engine Clutches

PT Tech's **HPT015FX** features our **POWER TOWER** pump drive, available for both inline and belt driven applications. In addition, the HPT015FX comes with PT Tech's newest controller the **ADVANCE 3**. Together they provide the most versatile and reliable clutches for off-highway machinery.

The **FX POWER TOWER** provides 4 pump pads with a combined 425 Hp capacity.
